

Lucas de Souza Lima

Junior Penetration Tester — Offensive Security

Contact

- ✉ lslima123@proton.me
- 🌐 github.com/lslima123

Certifications

- eJPT – eLearnSecurity Junior Penetration Tester (INE)
Issued: 2026
- ICCA – INE Certified Cloud Associate
Issued: 2026

Technical Skills

- Web Application Pentesting (OWASP Top 10)
- Network Penetration Testing
- Enumeration, Exploitation & Post-Exploitation
- Vulnerability Assessment & Reporting

Tools

- Nmap, Metasploit, Burp Suite
- SQLmap, Nikto
- Wireshark, Hydra
- John the Ripper, Hashcat

Technologies

- Kali Linux, Linux, Ubuntu
- Windows / Windows Server (basic)
- TCP/IP Networking
- Python (automation), Bash (basic)

Languages

- Portuguese (Native)
- English (Professional)

Education

- PhD in Mathematics – USP (2023–Present)
 - Visiting Research Internship at the University of Turin (Italy) under the CAPES PDSE Program
- MBA – ESALQ-USP (2024–2025)
- MSc in Mathematics – UNESP (2021–2023)
- BSc in Mathematics – UNESP (2018–2022)

Professional Summary

Junior Penetration Tester (eJPT certified) with hands-on experience in penetration testing across controlled lab environments, covering enumeration, exploitation, and post-exploitation phases. Practical experience exploiting vulnerabilities such as Remote Code Execution (RCE) and Command Injection, performing privilege escalation, and producing technical reports. Strong analytical and problem-solving background from a Mathematics PhD, applied to offensive security and vulnerability analysis.

Practical Experience in Offensive Security

- **Pentesting Labs and Simulations (TryHackMe + eJPT)**
- Conducted network enumeration using Nmap and Netcat
- Exploited web vulnerabilities (Drupal RCE, Command Injection)
- Performed SMB and FTP enumeration and exploitation
- Executed privilege escalation on Linux systems
- Used Metasploit for exploitation and post-exploitation
- Performed pivoting and lateral movement in lab environments
- Cracked password hashes using John the Ripper and Hashcat
- Documented vulnerabilities with technical evidence and remediation guidance

Projects

- Write-ups: medium.com/@ls.lima
- GitHub: github.com/lslima123

Soft Skills

- Problem-solving under pressure
- Analytical thinking
- Technical documentation
- Clear communication of technical risks
- Continuous learning
